Within the course of studies every student can choose an assistant (from the beginning of studies) and a tutor (from the second term of the second year of studies).

Foreign students may study Polish (as Western language classes) and additional meetings with chosen Polish students.

The course of studies may involve participation in two professional practices/internships outside university. Internships/practices are not paid for by the university. The possibility of funding the internship will be announced every year at faculty's website.

The schedule of the last year of studies will be adjusted to the plan of internship/practices.

The curriculum includes a librarian training, courses of health and safety at work, and a student rights and obligations training (ECTS points will not be awarded for these courses and trainings). They will be announced at the beginning of each academic year.
